## MY FOOTBALL JOURNEY

I'm Isa Warps (born in 2005), an Indonesian footballer with roots in both the Netherlands and Indonesia, my grandmother is from Padang, Sumatra.

I started playing football at DBS and later joined FC Eindhoven and RKS V Nuenen, where I held my own playing in boys' competitions.

In 2022, I moved to KRC Genk Ladies and later to NAC Breda, gaining valuable experience in Dutch women's football.

In 2025, I decided to follow my international dream: playing for Indonesia.

I officially became a naturalized citizen on June 10, 2025, and made my debut in the AFC Women's Asian Cup qualifiers against Kyrgyzstan, scoring the winning goal (1-0).

It was a special moment that I dedicated to my grandmother, something that touched many hearts in Indonesia.

Since then, I've played five international matches and scored one goal for Indonesia.

After my debut, I caught the attention of several clubs in Malaysia, Greece, and Germany, and eventually signed with Warbeyen in Germany, a club well-known for developing young talent.
